

FACELESS INSTAGRAM CREATOR STARTER KIT

50 Reel ideas | 100 hooks | 30-day calendar | Monetization

BUILD A BRAND. SHOW YOUR WORK. KEEP YOUR FACE PRIVATE.

Welcome, Creator

You do not need to be on camera to build an audience, a brand, or an income on Instagram. Thousands of creators grow with text, motion graphics, screen recordings, stock footage, hands-only shots and voiceovers.

This kit gives you the full system: what to post, how to open every Reel, when to publish, how to design in Canva, how to script with AI, how to add a voice, which niches work, how to ask for action, and how to earn.

How to Use This Book

- **Week 1:** Pick a niche (Chapter 7) and set up your Canva brand kit (Chapter 4).
- **Week 2:** Batch-write scripts using the AI prompts (Chapter 5) and record voiceovers (Chapter 6).
- **Week 3 onward:** Follow the 30-day calendar (Chapter 3), borrow hooks (Chapter 2) and ideas (Chapter 1).
- **Always:** Add a clear CTA (Chapter 8) and plan how you will earn (Chapter 9).

PRO TIP

Consistency beats perfection. Post the version that is 80% good. You will learn more from one published Reel than five drafts.

PRO TIP

Test each format 3 times before deciding if it works for you. Ideas often need a few attempts to find the right hook and pacing.

02 100 Hooks

Your first 1 to 3 seconds decide everything.
Replace [brackets] with your own topic.

A hook is the on-screen text or first spoken line that stops the scroll. In a faceless Reel, the text hook is your face, so make it big, short and readable within one second.

HOOK RULE

Keep hooks under 10 words on screen. Use contrast (white text, dark shadow), place it in the safe zone, and make the first frame interesting by itself.

04

Canva Workflow

Design once, reuse forever.
A repeatable system for fast Reels.

Canva is the easiest way to make faceless Reels without video-editing skills. The secret is a reusable system, not starting from scratch.

Core Reel Specs

Setting	Recommended
Canvas size	1080 x 1920 px (9:16 vertical)
Length	7 to 30 seconds for most Reels
Safe zone	Keep key text away from the top and bottom edges so buttons do not cover it
Font size	Hooks 70 pt or larger; body text 40 pt or larger
Export	MP4, 1080p, 30 fps

The 8-Step Workflow

1	Set your Brand Kit Save 2 to 3 colours, 1 to 2 fonts and your logo so every Reel looks consistent.
2	Create a master template Build a 1080 x 1920 design with your hook box, text area and handle.
3	Write your script first Know your hook, 3 to 5 points and CTA before you open Canva.
4	Add visuals Use Canva's stock videos, your screen recordings or your own hands-only clips.
5	Animate the text Apply simple animations (pop, fade, typewriter) and keep them consistent.
6	Add audio Use Canva's library, a voiceover recording or add trending audio inside Instagram.
7	Time to the beat Cut each scene to 2 to 4 seconds to keep the viewer moving.

Export and schedule

Download as MP4 and schedule with Meta Business Suite or post natively.

PRO TIP

Duplicate your best-performing Reel in Canva and swap only the text and clips. This turns a 60-minute job into a 10-minute job.

Batching Tip

Dedicate one block each week to design all Reels at once (for example, 5 Reels in 2 hours). Switching between writing, designing and posting wastes time, so batch each task separately.

05

AI-Assisted Scripting

Use AI as your writing partner.
Draft faster, then make it sound like you.

AI can help you outline, brainstorm and polish short scripts in minutes. The key is giving it context: your niche, your audience and the style you want.

The Reel Script Formula

Part	Length	Purpose
Hook	1 to 3 sec	Stop the scroll
Context	3 to 5 sec	Why the viewer should care
Value	10 to 20 sec	Steps, tips or story
CTA	2 to 3 sec	Tell viewers what to do next

Copy-and-Paste Prompts

PROMPT 1: Idea Generator

Act as an Instagram content strategist. My niche is [niche] and my audience is [audience]. Give me 20 faceless Reel ideas that use text on screen, stock footage or screen recordings. For each, include a hook.

PROMPT 2: Script Writer

Write a 30-second Instagram Reel script about [topic] for [audience]. Use this structure: hook (under 10 words), context, 3 quick tips, and a CTA to [action]. Keep sentences short and conversational.

PROMPT 3: Hook Variations

Give me 10 different hooks for a Reel about [topic]. Use curiosity, contrarian, list and problem-based styles. Keep each under 10 words.

PROMPT 4: Caption Writer

Write an Instagram caption for this Reel script: [paste script]. Include a short hook line, 2 to 3 value sentences, a CTA and 5 relevant hashtags.

PROMPT 5: Make It Sound Human

Rewrite this script in a friendly, casual voice. Remove jargon, cut filler and keep it under [number] words: [paste script].

IMPORTANT

Always edit AI output. Add your own examples, opinions and personality. Fact-check any claims, numbers or tool details before you publish, and avoid copying other creators' content.

06

Voiceover Options

Give your faceless brand a voice.
Or let the text and music do the talking.

Audio matters as much as visuals. Pick the option that fits your comfort level, budget and niche, then stay consistent so your audience recognises your style.

Option	Best For	Pros	Watch Out For
Your own voice (no face)	Authority and personal brands	Most authentic; no tool cost	Needs a quiet space and some practice
AI text-to-speech	Fast, high-volume posting	Quick, consistent, no recording	Can sound robotic; choose natural voices
Instagram or CapCut built-in voices	Beginners, trend-style Reels	Free and easy	Many creators use the same voices
Hired voice actor	Premium brands and series	Professional quality	Cost and turnaround time
Text and music only	Quotes, aesthetics, ASMR	No voice needed; global reach	Needs strong visuals and hook text
Trending audio	Reach and discovery	Can boost visibility	Audio availability and rights can change

Recording Tips for Clear Audio

- Record in a small, soft room (closet or bedroom) to reduce echo.
- Use a phone mic 10 to 15 cm from your mouth or an affordable USB microphone.
- Read at a natural pace, then speed up slightly in editing if needed.
- Add captions: many people watch with the sound off.
- Keep background music low so your voice stays the focus.
- Check usage rights for any audio or voice tool before using content commercially.

PRO TIP

If you use an AI voice, read the tool's terms for commercial use, and consider disclosing that the voice is AI-generated if your audience would expect to know.

07

Content Niches

Pick a lane and own it.
Twelve faceless-friendly niches to consider.

A good niche sits where your interest, audience demand and a way to earn overlap. Choose one main niche for your first 90 days so Instagram learns who to show your Reels to.

Niche	Audience	Best Content Types	Income Paths
Productivity & Study Tips	Students, remote workers	Tool tutorials, routines, planner flips	Templates, affiliate apps, courses
Personal Finance Basics	Young adults, beginners	Budget hacks, savings challenges, explainers	Affiliate tools, digital guides, newsletter
Motivation & Mindset	Broad audience	Quotes, short stories, affirmations	Digital planners, journals, coaching funnel
AI Tools & Tech Tips	Creators, small business	Tool demos, prompt packs, workflow screens	Prompt packs, affiliates, services
Health & Wellness Habits	Busy adults	Routine ideas, habit trackers, recipes	Printables, meal plans, affiliate products
Home & Aesthetic Decor	Renters, homeowners	Room makeovers, product finds, organising	Amazon storefront, affiliates, brand deals
Travel Inspiration	Planners, dreamers	Destination lists, budget tips, itineraries	Affiliate bookings, itineraries, guides
Cooking & Recipes (Hands-Only)	Home cooks	Overhead recipes, meal prep, kitchen hacks	Recipe eBooks, affiliates, sponsorships
Business & Side Hustles	Aspiring entrepreneurs	Idea lists, tool stacks, behind the scenes	Services, courses, affiliate software
Books & Learning	Readers, lifelong learners	Book summaries, reading lists, lessons	Affiliates, summaries, newsletter
Pets & Animal Facts	Pet owners	Care tips, fun facts, product reviews	Affiliates, product brands, printable guides
Design & Canva Templates	Creators, small brands	Template reveals, design tips, tutorials	Template shop, courses, commissions

Niche Checklist

- Can I create 50 different posts on this topic without running out?
- Is there an audience that already spends money in this space?
- Can I make it with text, screens, hands or stock footage?
- Will I still enjoy this topic in six months?

PRO TIP

Go narrower for faster growth: 'budget meal prep for students' beats 'food', and 'Canva tips for coaches' beats 'design'.

08 CTA Examples

Every Reel needs a next step.
Copy, adapt and place them on screen and in captions.

A call to action tells viewers what to do after watching. One clear CTA per Reel works better than three competing ones.

2	Which one are you? Tell me below.
3	Tag someone who needs to see this.
4	Drop a [emoji] if you agree.

6	Vote now: A or B?

6	Share this with your team.

Follow CTAs

09
